Projects:

BE Project:-

Importers Arena - Importers Arena is basically an epic business portal or platform which allows stakeholders and/or company owners to register, edit, claim, promote their company. The platform not only establishing the digital identity but also helping you to expand the business by targeting the specific audience who are interested in certain business.

Company Projects:-

1. **UI-KIt using React Native**

2. **AllinOneX using React Native**

UI-Kit: UI-Kit is a basically a E-commerce shopping app which is design in react native.
In this project we are design **Two E-commerce shopping app UI.** we can navigate all pages as a follow also we can set all single pages in our main screen for easily access that page in one click and see that page ui easily. This app provide easy customization for title, background color , text field, Button and etc .

AllinOneX: AllinOneX is a combo of Social Media app and website. Which allows user to operate all Social Media apps in one platform. User can manage which social apps they can use. For that we can add hide show feature in the app. we can also add many feature
for the admin. admin can add data dynamically using Firebase like App Name , Title , Social Media Logo & Name , Push Notification , gridview Background color.
